### The new STIHL FS 230 and FR 230

The new STIHL FS 230 brushcutter and FR 230 backpack brushcutter offers perfect performance for all agricultural jobs. The new STIHL FS solution is light with less than 7,5 Kg and also remarkably powerful with a 1,55 kW engine stronger than every competitor in its class.

The FS 230 offers a superb downthrust that STIHL is known for, as well as impressive mowing performance, durability, and the capacity to handle all kinds of jobs.

	FS 230	FR 230
Displacement [ccm]	40.2	40.2
Power output [kW/hp]	1.55/2.1	1.55/2.1
Weight [kg]	7.5	10.5
Power-to-weight-ratio [kg/kW]	4.83	6.77
Fuel tank [l]	0.845	0.845
Max. torque at rpm [Nm]	1.9/6,000	1.9/6,000
Sound pressure level [dB(A)]	98	101
Sound power level [dB(A)]	112	110

#### Easy Maintenance

It is easy to clean or change the foam filter – no tools needed! In fact, the FS/FR 230 can be almost entirely taken apart using just the STIHL combination socket tool.

#### Unique powerhead

The unique STIHL powerhead is so powerful it can be used for multiple tool types. It has been designed to do many different jobs without losing performance.

#### Standard compatible shaft

The FS/FR 230 is supplied with the known in the market 26 mm shaft.

#### Compact versatility

The narrow width of the symmetrical handlebar means you can put the tool to work even where space is limited.

#### High performance mowing

The GSB 305-2 grass cutting blade provided is the longest in the STIHL range, and offers impressive mowing performance.
